

	A	B	C	D
GitHub Repo Organization	Project files are organized logically and consistently using clearly named subdirectories, and README file(s) provide information on overall structure and where to find deliverables.	Project files are organized into subdirectories, but could use more description of what is contained in each, and/or deliverables are not easy to find from the README file(s).	Some files are located in subdirectories, but it is not clear what is contained in each. Deliverables are not mentioned in the README file(s)	Project files are not organized into subdirectories.
